Book by Pflieger, William L

This edition is feels very cheap like a photo copied version. Alot of the pictures and text is blurry.

Excellent quality for a book published 20 years ago!

I had lost my old edition and was excited to find a new edition. I was also pleased to see that the edition had been updated. Thanks. This is a sound purchase.

This book arrived in as-new condition. Excellent!

The book was perfect! We were recently flooded and our book was ruined. It was a pleasure to find one that was inexpensive and in perfect condition !

It was wonderful!

Great

Husband is a biology teacher so this book has been quite useful the students enjoy checking it out and studying it
