Mario Galea is an artist whose manga comic book, Ninja High School Yearbook, was published by Antarctic Press. He has designed promotional characters, logos and animation for many companies, and he also sells limited edition prints.

The book has some good details on how to draw manga character for girls and guys

shows some ways to draw stuff wouldent think of doing has basic elements and other handy tips for drawing manga or even comics

Good book. Easy to read even for a beginner like me. Glad I got this book. I would buy it again.

The books arrived in a very good condition. My grandsons are enjoing them very much. Thanks for your interest.

Bought for a friend. I teach art but the kids these days really like the Anime and Manga stuff. I didn’t review the book before handing it to the friend.

The art does not represent Manga drawings at all, in my opinion. This book was a big disappointment to me and a waste of money.

My experience drawing Manga/Anime figures is that of a beginner. I bought about 10 different books to get started as I have zero drawing experience. Of the many fine works that have helped me improve my sketching in a very short time, this one was one of the two most helpful. The "tutorials" in the beginning of the book are great, especially helping a novice draw figures from different angles. The second half of the book is devoted to examples of various manga-style(and yes, in response to another comment...they ARE MANGA) figures for inspiration.I am sure the book may not offer much to veteran manga artists...but this newb really appreciated the leg up offered by Mr.Galea’s book.

The book speeds through vague tips, without stopping long enough for you to actually figure out how to draw anything. It will speak about the three main views of faces, but not how to actually draw a face at any of the angles. It will tell you about expressions, but no hints on how to draw eyes or mouths.
