Customer Reviews

I wasn’t buying maps for navigating a car, since that would be pretty useless in Boston. I wanted to frame a map for every place my husband and I have lived. I really wish that they’d give a tiny preview of what these maps look like, because I wanted to get Tufts, Moody Street in Waltham, and Downtown Boston into a 11/14" frame... This was not the map for that.Seems like a fine map for people who think they can get around Boston with a map, though. I’ll tell you an old story about that,

though. A man moved to Boston, and he called AAA to get a free map of his new hometown, as he'd always done in previous moves. The AAA operator told him that if he didn't already know where he was going, a map wasn't going to do him any good. This is true. There aren't road signs for street names. Rotary exits are unlabeled. Even GPS isn't overly helpful because of the tunnels and signal reflection off of the skyscrapers. I've lived in the greater Boston area for 4 years now, and honestly, I just take Uber if I need to go downtown. It's just easier, and sometimes cheaper if there's some event going on (parking is time consuming and too expensive to justify driving. plus, I get to drink if I'm not driving).

This map does not show commuter rail lines or stations. If you want to find out how to get from A to B in Greater Boston using public transit, this map will not help you. To be fair, it also does not claim to include public transit or commuter rail information. But who wants to drive in Greater Boston anyway, and then deal with parking?

Great but not for trying to plan a trip in the historical township.

I have not been to Boston yet but this map seems to me to be ideal. The street names are in print that I can read without fishing out my reading glasses and the different districts are very clearly marked. As usual, Rand McNally appears to have produced a reliable map which is easy to use.

I received a Boston street map instead of a greater Boston map. It does not include the same area as advertised/described.
