Synopsis

In 1967, the first I Ching book, The Book of Changes, was published in English. The Book of Changes detailed the 64 hexagrams from the Chinese I Ching in great detail, giving the Western world powerful insights into the archetype of humanityIn 1987, a new science of personal discovery, Human Design, was conceived : Human Design.Human Design is a synthesis of ancient and modern wisdom traditions including Eastern and Western astrology, the Chinese I Ching, the Hindu Chakra System and the Judaic Kaballah, combined with Quantum (Neutrino) Physics and an understanding of the Human Genetic Code.Human Design gives us an extraordinary in-depth understanding of the possibilities for mankind, particularly in these changing times.In this new book, The Book of Lines, Chetan Parkyn, a Human Design Master Practitioner and Teacher for over 20 years, shares a modern day explanation of the Chinese I Ching as it relates to Human Design, and also as a standalone version of the I Ching for divination...in clear, straightforward language. The Book of Lines is a 21st century view of the I Ching and gives the reader a deep and practical way to understand who they are, how they are energetically configured, the power they naturally carry and share with the world and how to proceed in it with clarity and awareness.This modern-day, easy-to-understand manual is an important companion guide for anyone who uses the Chinese I Ching and Human Design.The Book of Lines takes a deep and mystical esoteric science and translates it into simple, grounded language that helps the reader gain a deeper understanding of themselves, their loved ones, and the life conditions that influence us all.

Customer Reviews

Another easy to read book from Chetan. Great explanations about the lines. Easy to read and to understand. Looking forward to his next book.

If you have been a fan of Human Design or Gene Keys, this is a Great book to add to the collection. It gives fabulous visuals of each of the 64 combinations of Lines. Timely in making available a deeper understanding for each person who is investing in understanding the complexities of the world as held in the topography of their personal energetic fields.

Good , book.

I can finally understand myself.

Wonderful book

When I had my reading done, I was given the line characteristics of my gates and I thought it was very helpful. This book now lets me give them to my friends and family. It’s subtle, but interesting. For example my never married sister on her 6 line has the nuance rejects intimacy...bingo! Some of them seem relevant like "may or may not come up with helpful solutions", but I know the i ching is like that. And at the end it shows you how to throw the i ching which was very interesting for me. I’d say it’s a good tool to have in your HD kit.

Very useful and informative book a must have for Human Design students

Nice summary definitions of the I Ching Hexagrams. A great learning tool for Human Design

students!
