Customer Reviews

This folded map has cities generally printed just big enough for this glasses-wearer to read without a magnifying glass. A slightly larger map might be easier on the eyes, but then the customer is dealing with the need for a large enough surface upon which to place the opened map. The colors identifying the countries are vividly differentiated. It is current to 2015. With all the changes going on in the world, with all the global news, this map is very handy, and easier to replace than a big globe. Recommended.

Awesome map and very up to date. I got the because I like having a quick reference point whenever I need to know about the geography of the world. I've even found that I'm getting to know the countries of the world and their capitals even better just by having it up. It's a good size and comes folded, so it may take some time to get the creases out. Overall, very affordable and great buy

Very nice poster with the traditional Mercator projections world map, as well as polar views and homolosine projections that reduce distortion in the size of the continents. Looks great.

Bought this for my son. Mounted it on a sheet of plywood which I covered with cork. He now uses it to put pins up to show where he's been and where he wants to go next. The price was right and if you have some cork and plywood lying around it is much cheaper than the pre-mounted ones. Nice thing about the lamination is that a pin prick doesn't tear the map up, even if you pull the pin and put it in next to the previous location.

This is a good value priced world wall map. It comes folded so the creases are very visible. I will get a bigger map laminated, the countries and words are much too small for me to see from my desk, I need to get up and be at least 3 feet from the map to see locations and names. This would be good for a young student maybe

Love this map's projection. Since geography isn't a major part of school curriculum, kids get confused with other projections with Greenland being the size of the US... :)

just as described. Perfect for wall hanging. Heavy laminated paper.

Not only is the map not really up-to-date (South Sudan has been a legit sovereign state since 2011),

it ripped when I attempted to re-position it and tried to remove the packing tape I was using. The laminate is a lot thinner than expected.Overall, an outdated product of unsatisfactory quality. Go for something more solid.
