Ngcheong-lum writes and edits books in Singapore.

I have found that Culture Shock: Mauritius is a great resource for those visitors to Mauritius who are actually living in the country, rather than just visiting the touristy sites. There are very important local customs and traditions to be aware of that are discussed in detail in this book that are only skimmed over in the common tourist guides. While the other guidebooks help you find your way to the beach

and which hotels to stay in, Culture Shock goes a great deal further in dealing with people. Mauritians have a great deal to offer in their multiculturalism, but without a book like Culture Shock, it may be difficult to understand how the cultures come together. The book gives advice for numerous social and business situations, as well as advice for living and getting around the country. In general the book has been fairly easy to read -- enjoyable and interesting before arriving to Mauritius, and helpful as a reference and to re-read after settling on the island.I have felt that there are a few things the book is a bit in lacking -- it could include a bit more of the touristy options and in some parts seems a few years outdated, but in general the advice has proved very helpful, in very different situations. Roselin Lum has done a good job of balancing the different ethnic groups, and explaining their places within the country. Her book, though best for people who plan to stay significant time periods in Mauritius, would also be extremely useful for a short-term visitor who wants to understand more about the people they will meet. For a country known for its beaches, Mauritius has a lot to offer due to its multicultural composition. Lum's book lays a significant groundwork for making lasting contacts while in Mauritius.
