"An award winning series, "The Adventures of Rainbow Fish" teaches children not only about fish and marine dwellers, but also such values as working together to solve problems, valuing each others unique differences, and using creativity to make up with friends who are different instead of fighting with them."- Midwest Book Review

-Over 40 million copies of the Rainbow Fish books have sold worldwide.-Marcus Pfister's sweet stories of friendship have become childhood classics.-Glittering accents of holographic foil bring sparkle to the stories.

This Rainbow Fish book is so well made that it should last for years. I quilt and there is a quilt

pattern that goes along with this wonderful book. The illustrations are so good and the colors are vibrant. It is a great book for kids.

Amazing stories and colors ... recommend for a gift for a child.

Five great stories in vivid colors.

Great stories and illustrations. Our grandsons love the rainbow fish series and can’t wait for pj time so they get to hear another story.

I got this book for my classroom (2-3years old) I was nervous the book would be too much for them, but this book does a wonderful job with the illustrations that the children are simply captivated by it. The even ask for the stories from "the big book" every story time.

My daughter loved this as a child so I purchased one for my first grandson. Illustrations will catch infants attention with shiny colors. Purchased one also for the local Kindergarten class along with some mini plastic fish for story time.

I love Rainbow Fish and so do my students. Rhia doesn’t have the Rainbow Fish story I was originally looking for, but it’s great that there’s so many stories in one book!

Fun to read to kids agina and again!
