Synopsis

Flowers are a perennial favorite among craftersÃ¢â ¬â •especially when they’re quick to create, and made with felt, pretty fabrics, and eye-catching stitched embellishments. These 42 floral projects include a simple stemmed marigold; a cascade of silk poppies; an embroidered bouquet for a lucky bride; roses entwined in a summer headband; a dapper little boutonniÃƒÂ¨re; and a velvet succulent wreath to adorn a door.

Just in time for Spring!This book is beautifu. The instructions are clearly written and easy to follow. There are lots of different flowers to try and templates for cutting out petals and pieces are included. The projects are compact and portable as well, so you can take them anywhere. All you need are a

few basic supplies and your favorite and/or scrap fabrics.Seriously, this book is easy to use. Meghan Hunt and her editor(s) did a great job of keeping most of the instructions all on one page (no turning pages while trying to hold pieces together!) and using individual photographs that showed the different steps of flower building.Lots of different textures and fabrics are highlighted in the book. I've tried a couple flowers (with success!) and I expect to use this book for my primary flower resource. I already used a flower to dress up a birthday package and plan to make a couple for a gift for my mother.

An excellent, easy-to-follow-and-make book. I love the professional-looking results. I would strongly recommend this book to anyone interested in beautifying a room or a garment, etc. in a simple yet eye-pleasing way. The flowers are a lot of fun (and quick!) to make.

This book is amazing. I was going to be happy if there were 12 flowers I was interested in making. I can be incredibly picky. But there are at least 35 I want to make. So excited. The felt flowers in this book are gorgeous.

Very helpful in learning how to make flowers out of felt
