Synopsis

The Fast Track series is designed to prepare applicants who are seeking Federal Aviation Administration (FAA) certifications for the full range of material on each test of the series. This test guide offers current test questions, answers, detailed explanations, illustrations, and oral and practical study outlines to the FAA's Powerplant Knowledge Exam. The series is designed in a "fast-track" format for increased comprehension and retention of the studied materials. This guide also lists and identifies all the FAA Learning Statement Codes (LSC) that the FAA uses on their Knowledge Test Reports, which are useful for test takers to find out what their weak areas are if they missed any questions on their FAA exams, and focus further study on those areas.Featuring all the questions from the FAA Knowledge Exam's "Powerplant" section for Aviation Maintenance Technicians, this new edition answers and explains the toughest questions on the FAA exams.

ASA Test Prep Board: ASA Test Prep Board includes editors Jackie Spanitz, Charles L. Robertson, Cliff Seretan, and Paul Hamilton. Jackie Spanitz is the director of curriculum development at Aviation Supplies & Academics, Inc., and the author of several books, including Guide to the Flight Review. Charles L. Robertson is an associate professor of aerospace at the University of North Dakota. Cliff Seretan holds a Commercial Certificate with an Instrument Rating for Single- and

Multi-Engine Land Airplanes and CFI for Airplane Land and Instrument. Paul Hamilton is a sport pilot and light-sport aircraft expert, a flight instructor, and the owner of Adventure Productions Co. For the ASA Test Prep Series, all editors listed are consulted for new material for the Series. In the case of the "Visualized Flight Maneuvers Handbooks," Jackie Spanitz is the only editor who contributes to these.

I bought all 3 to help me prep for my O&P's I did not use for the written as I prefer the prepware App. Theses are the print version of the App questions. plus a section of possible oral questions. So consider what study style works best for you. With the new changes to the test standard it is important that you have a good understanding of each subject area and do not just memorize the questions.

good

his book has help me study for my test at school.

fast and easy Great job

Helped me pass my written exams

This book is helping me to pass the FAA test so I'm very excited to have this Powerplant Guide.

It's a very good work!!!

Great review for test.
