I love this book, it is filled with balanced, imaginative, intricate circular mandalas, and you will want to color every single one using the color key or using your own imagination to create your own unique Mandalas. It is easy to decide with the full color thumbnails of each Mandala in the book. I like the color choices the artist has chosen and most I will follow the color by number key then use this book as a reference.This is a perfect addition to your coloring library for those days you just want to color and not even choose the colors; also it is a perfect book to learn new and unique color patterns because the artist has used different color combinations on every single mandala in the book that is 46 beautiful, unique color combinations. Pictures added below.This is a perfect gift for Adults, College Students, and School aged children.1. 6 (7 1/4th inch) Circular Mandalas printed one per page (The back of each page is blank) on heavy weight, bright white, perforated paper.2. This book is perfect for Colored Pencils, Gel Pens, or Ultra Fine Markers.3. Markers bleed through the pages so place two pieces of paper under the page you are coloring so you donÃƒÂ¢Ã â ¬Ã â„¢t damage the next image, or remove the page from the book.4. Colored thumbnails of each picture are included on the inside front and back cover, so it is easy to follow the color guide or decide to use your own unique coloring style to complete each of these captivating mandalas5. Colors in the color key are: Black, Gray, Dark Gray, Burgundy, Red, Rose, Pink, Lavender, Violet, Royal Blue, Light Blue, Sky Blue, Teal, Green, Dark Green, Yellow Green, Bright Yellow, Yellow Orange, Peach, Orange, Orange Red, Brown, Tan, and Dark Brown.6. Many of the illustrations have very small details, with small numbers, I donÃƒÂ¢Ã â ¬Ã â„¢t wear reading glasses but at night I find it easier to color under a Daylight light bulb, this is a type of bulb (sold on) they are a bright white light that lets you see the true colors easier and I can read the small numbers much easier in this book. A magnifying glass also helps.

I really like this color by number book. There is a great selection of mandalas. The mandalas include owls, dragonflies, butterflies and cupcakes along with many shapes and styles.. Each design is printed on one side of the page. The pages are perforated for removal. I found them a bit rough to remove at the perforation as they tear easily into the design. The numbers are very faint and tiny. I do wear glasses but also need a magnifier at times to distinguish numbers such as 3, 6,8 and 9. I use a good quality colored pencil to color these yet the numbers still show through especially on the lighter colors. There is a number key on the inner front cover which lists the name of the color and a sample of each color. The color key does not list what brand the colors the author used for reference so you need to match up your pencils, crayons etc. to the key. This is understandable as

people vary in the type of medium they use but it is a bit tedious. I went through my colored pencils and set aside the 24 I would need to complete the book. I would recommend this book for the beautiful designs even with the cons I have listed. I intend to purchase the others in this series.

What a fun book! I enjoyed the beautiful patterns which I colored with permanent markers. Had to use a magnifying glass to see some of the numbers since they are printed so light, but I couldn't put it down. I wish there was another one!

Perfect for when you don't want to think about what colors to use and just want to color! After years of being too busy, I bought a regular adult coloring book that is fantastic, however still having little time and being out of practice, I find it's a bit too overwhelming to choose colors. With this color by number, it's easy! Love it. I'm using colored pencil right now and you can still see the numbers with the lighter colors. I'm going to try gel pens or markers next.Pages are perforated and single sided.

I expected better from Creative Haven. Numbers very hard to read, even with a magnifing glass. The few I've done have only used five colors.....boring! Colots hard to match. Putting book away

I love this book but the one thing I would say is that the numbers are very small and hard to read when painting! Still having fun with it although I would most definetely recommend coloring with pencils due to such small details, I've ruined a few pages when trying to use markers, even extra fine point ones!

I absolutely love this coloring book. The pictures are beautiful and I can't wait to get some of them done. I have been working on the first picture for about an hour everyday and am not finished with it yet. I love that it is a color by number because without the numbers my pictures would not turn out as well as they should. The best thing about this coloring book is the pages actually come out, none of my other coloring books are like this, it makes it much easier to color. This is just the best coloring book I have purchased, I plan to give these, along with colored pencils, as Christmas gifts this year at work.

some slight issues with reading numbers but understandable with size of numbers. beautiful designs on great paper and really enjoyable to color. if you are picky about coloring books this may not be for you but if you are able to roll with small mistakes and just want to enjoy coloring this is

fantastic. it is also done in such a way as to make it easy to use the colors you choose for the numbers rather than the colors prepicked for you. (encouraged on the first page too which is cute!)however i will not be going out of my way to get others from this brand for color by numbers. this one i really like mainly because i love mandalas.
