While I'm still waiting for my book to arrive, I already own Vol 1 (curriculum change has me ordering Vol 2) -- but this is excellent to use in the classroom. You are given various primary sources on a particular topic -- such a wide-range, plus a reflection some time after the event. Students need more exposure to this type of information & I think this set-up is really really great. Hoping Vol 2 has what I need for my new course!

Great history book. I enjoy reading how different people's perspectives are on historical events and how they differ depending on who writes, how long ago the event happened, and on how they write based on their motives.

Bought this on recommendation from another teacher & I'm not even using it.

This person who sold this book to me really ships good stuff. The book I got was given to me in a reasonable and good quality, it did not have any markings and it was easy to read.

This product was very modestly priced for its immaculate condition. It doesn't look used at all. Also, I obtained it a week before expected arrival - very quick shipping. It was an overall pleasant experience.

Nice to use for teaching revamped APUS course. Several topics that you can choose for points of emphasis. It includes primary and secondary sources with alternative interpretations of events. Worth having for teachers. Only negative is older book so the sources are not too recent.

The book came in a timely manner. The book is in very good shape: not torn, good binding, hardly any markings/highlighting. I am very satisfied with the purchase.
