Synopsis

Your ticket to a higher score on the police officer exam Police exams are becoming increasingly difficult to pass, as law enforcement agencies are looking for the most capable officers from the candidate application pool. To help select the most qualified candidate, more than half of the departments and agencies throughout the country are following the current trend of using the National Police Officer Selection Test (POST also referred to as NPOST). Police Officer Exam For Dummies features three POST exams based on the official test, plus one New York City (NYC) exam. If you’re a prospective police officer who needs to take the written exam, Police Officer Exam For Dummies gives you all the essential test preparation you need to succeed. Packed with study advice and test-taking tips, you’ll get targeted instruction on everything you can expect on the actual exam. Targeted review in judgment, map reading, memory observation, and recall skills Coverage of all key subject areas 4 full-length practice officer exams with answers and detailed explanations Whether you’re taking the local, county, state, or federal agency exam, this guide contains everything you need to score your highest on the exam and realize your dream of becoming a police officer.

Customer Reviews

I bought this as a gift for my husband, who was preparing to take the CHP Exam and the local Police Department exam. He passed BOTH written tests :) Definitely helped him get a good understanding of what to expect and break apart the tests.It has multiple practice tests to use as a review as well as detailed explanations for the answers (if you are unsure of WHY that is the correct answer).

I aced the test so this certainly helped. Sat down and read through everything the night before. The practice test was particularly helpful - math problems were spot on.

Great for Nypd test, but it’s not so good if you’re taking a Texas test.

Got what I was expecting. Hope this helps.

Very helpful

Bought it for a student who wants to become an NYPD officer. They really like it and found it helpful to give them an overview of the exam before they go an buy other necessary books to study for the exam.

It is a really good book, that breaks each component down that could be on a test. It was very easy to understand, and learn from.

Fantastic book
