Customer Reviews

This book turned out to be far better then I'd expected. With a total of six chapters in the book, each of the first five deals with a specific Urban Legend in detail, providing it with a WOD centric view and twists; ways in which to vary the legends to keep players from second guessing or wondering which truth is real. The last chapter offers up a grab bag of different Urban Legends and allow for an ST to expand on. If you found the book Antagonists to be lacking or needing more, this book helps make up for it.
