Synopsis

Cursive Handwriting Workbook for Kids: Beginning Cursive helps children learn the basics of cursive writing in the most enjoyable and fun way! What makes this amazing workbook different from most other workbooks on beginning cursive, is that it provides Ã¢â ¬Å“dot to dotÃ¢â ¬Â•-illustrated exercises to help children understand how exactly to form each cursive letter and how to connect cursive letters. In part 1, students learn and practice the cursive alphabet. They have to draw the snailÃ¢â ¬â„¢s trail inside the letter with a marker, following numbered dots, a fun way to learn how exactly to form each letter. Afterward, they practice writing the letter by tracing inside it and copying it multiple times. In part 2, students learn how to connect lowercase and uppercase cursive letters, and, in part 3, they practice writing their first words in cursive. An ideal STARTING POINT for BEGINNERS! Easily learn to write the cursive alphabet! Learn how to connect letters and form words! Unique Play & Learn system with Ã¢â ¬Å“dot-to-dotÃ¢â ¬Â•-illustrated exercises! Appropriate for Grades 2-5! Reproducible: Parents and teachers may reproduce worksheets for use at home or in class! Note: This workbook is for beginners (Level 1). It is the first book of our Cursive Handwriting Workbook Series and it is meant to be used in the context of adult-guided lessons. Its purpose is to help children learn the cursive alphabet as well as to understand how to connect cursive letters and form short words in cursive. Upon finishing this workbook, students will be ready to move on to more advanced workbooks that will help them practice writing words (Level 2) and sentences (Level 3) with a goal to build fluency. Customer Reviews

This book has been so easy to use. My son loves it!

Great step by step learning for each letter

It is a wonderful book, my son Jordan is learning how to write his A's and B's in cursive and he's doing a pretty good job so far

Okay, in fairness, we've only used this book for a day. But, after flipping through it, I'm really pleased with what I see and think it'll meet our needs perfectly. Some thing I like about it-The pages are clear and bite-sized. No overwhelming rows upon rows of practice. The pages for word practice are full pages, but the font is large. (See pictures.)Rather than dots to copy over, there are trails to follow (in between the font lines). I don't know why this would make a difference, but I like it.Lastly, I really like how when they move on to connecting the letters into words, the individual letters for each word are practiced once again, before following the pathway to connect them into words, and then, finally, practicing the words on your own.Gray product!

Zaner-Bloser cursive style is widely accepted. This workbook is perfect for learning to write cursive. Individual capital and lower case letters with connect the dot guide and two lines of tracing are provided. Two extra lines are given for additional practice on your own. After alphabet letters the following pages have practice lessons on connecting letters and writing words. This is a great product and I am very pleased with my purchase.

My wife is practicing her handwriting after a stroke. It works well for her

They no longer teach cursive in my grandson's school. I think this is a shame so bought this book for him. He loves it.
