This book was published in 1929, the year my Mother was born. She had a copy as a child, and she loved it so much and learned so much that she grew up to be a professional puppeteer. We still have her copy. My son is 7 and we will be making our first puppets this winter, starting with this still useful book. I am pleased to see it is available on for a most reasonable price. Happy puppeteering.

This book is one of the best put together, most fun, most practical craft books for anyone, children and adults. Profusely illustrated, it provides plays for marionettes, ideas on dressing them and even full sized patterns in the back pocket of the book. I am always checking it out of the library just to look and plan my own puppetry. I truly hope that a publishing company will see this books merit (along with Ms. Ackley's other work) and reprint it for a new generation to enjoy.
