Grade Level: Preschool and up

Customer Reviews

Toddler sings the song on his own without the book. We never sang it with "tickets, please", but he does now. The wheels are cut out with the tire getting smaller as the pages go, but a child can trace his/her finger around it as the wheels go round. I also do not remember having a party at the end of the song.

This is my 11 month old son’s favorite song so obviously he loves the book. He likes running his fingers over the tires because they are multicolored and recessed on the pages.

A friend gave us an ’Old McDonald’ book by the same company and each page is hard cardboard so the holes are very obviously revealed with the turn of a page. This book is flimsy soft pages found in a normal book with holes but they barely reveal themselves so my 14 month old can’t really distinguish without a lot of help that something ’new’ has been revealed. She likes it but loves the other book. So I have to some how see if the company makes a less flimsy version of its books with

holes anymore. The other book was given to her by a friend whose daughter used it 15 years ago.

My daughter loves loves this book, it has holes inside of the book which makes my daughter want to keep reading it.

Different version of the song than what I've always heard, but still cute. I just changed some of the words to what we were used to.

Great book

The words in this version of the book are slightly different than what we usually sing but my daughter loves it anyway. For example, we sing "all through the town" and this book says "all day long" and our driver says "move on back" while the book's driver says "tickets please". Not a problem, it's just different. The pictures are hilarious and the holes are awesome! They integrate into each page so well. Plus my daughter gets a kick out of the last page where everyone on the bus goes to a party. Definitely a great purchase!

My 2 year old daughter loves this book!
