Disney Publishing Worldwide (DPW) is the world's largest publisher of children's books and magazines, igniting imagination through storytelling. DPW creates and publishes books and magazines both vertically in-house and through an extensive worldwide licensing structure. Headquartered in Glendale, California, within the Disney Consumer Products and Interactive Media business segment, DPW publishes books, magazines and digital products in 85 countries in 75 languages. For more information, visit disneypublishingworldwide.com.

I love Beauty and the Beast and was totally disappointed in the quality of this book.The pictures thru out the whole book are very dark. Unless they do something to brighten the pictures, I would recommend not wasting your money on it.

Pictures are dark and print is tiny. Too bad, because it seemed perfect for struggling readers were it not so poorly printed.

They aren’t kidding when they say pictures are dark. The entire book is dark, even the "lighter" pages are what would be considered dark for other illustrations. It’s like watching tv on the lowest brightness setting. Major dissapointment!

A cinestory is simply screenshots of the film with the dialogue added in, comic style. Unfortunately, in this case, the pictures are too dark, making everything difficult to see. To make matters worse, the book is printed using pulp paper; the kind comics used to be printed on in the 80’s before they switched to glossy paper. This makes everything look low res and even more blurry than they actually are.In the current state, this book is a solid miss. Hopefully Disney/Joe Books will consider using glossy paper and remaster the picture for the hardcover coming out later this year.
