Customer Reviews

my six-year-old loves this puzzle book. the 9x9 puzzles were too difficult for her to learn, but she quickly grasped the concept with the 6x6’s and after 4 or 5 puzzles was solving them by herself and having fun.

I bought this Soduko for my 10 year old math loving son. He had seen me working on Sudoko puzzles and wanted to try. These 6X6 puzzles are great for helping him learn the strategies of Suduko without being too difficult to dissuade him from playing.

My 6 year old loves this!! It has been helping her with her math and thinking skills. I'm glad she likes them and is moving o to the 9x9 boxes.

My second-grader loves the puzzles. It starts out easy and gets progressively harder. At the back there are 8x8 and 9x9 sudoku plus other kinds of sudoku that require math computation to solve. Perfect for traveling by plane or train!

Got this to challenge dome of my kiddos in math and this didn't disappoint.

kids loved it. It is totally something you do with your child until they get the hang of it. You don't want them to get frustrated with it, but then watch them hae a great time solving the puzzles!
