Synopsis

A single-volume reference to answer all your questions about history’s most complex century.The 20th century was a time of massive political upheaval and rapid transition that included the Age of Imperialism, Lenin, the First World War, the rise of Hitler, the Second World War, decolonization, the founding of the United Nations, the collapse of Communism, and the Gulf Wars.The Collins Atlas of 20th Century History provides a new approach to understanding the century’s major developments, from the height of the Imperial Age to the challenges of the post-Cold War era. Here is a visual presentation of an incredibly eventful 100 years, a tour through ten decades of conflict, hope, and innovation. Maps and graphics trace the rise and fall of empires and dictatorships, the hope for democracy, and the social and political change around the world.More than 200 full-color maps, diagrams, and timelinesEdited by 20th century historian Richard OveryComprehensive coverage of all areas of the world Examination of key battles and eventsInternet links for further researchFor anyone with an interest in the history, society, politics, warfare, and culture of the world, the Collins Atlas of 20th Century History is a perfect companion.

Customer Reviews

Richard Overy is a leading authority in the field of modern history. He is Professor of Modern History at Exeter University, and is the general editor of The Times Complete History of the World. --This text refers to an out of print or unavailable edition of this title.

This Atlas thoroughly covers the historical events of the 20th Century. The many colored maps of

different historical eras are beautifully with graphics and symbols. My only problem was each page of maps and graphics had a bit too much detail in separate small paragraphs around each map. I'm sure other students of history will have no problem with the Atlas. Matter of fact, the Atlas is one of the suggested books for a graduate history course I am taking from Harvard Extension.

very good book of information my son used this book for a college history class he rated the book.

This is a good book, clearly exposed and with good maps and well chosen topics. As other on this series, it is a very small format for its content. Everything is correspondingly very small.Should be 50% bigger in both dimensions.Overall, good value for money.
