Synopsis

Is Freemasonry nothing more than a benign and charitable men’s social club as the Order insists or does it have a deeper and perhaps darker purpose? Could these men be part of the "Illuminati" - a group of intellectuals with extremely grand plans for the development of civilization? And if so, what is the grand plan that these men were so determined to bring about, and why should there be such opposition to it? Christopher Knight and Alan Butler reveal that present-day freemasons are the spiritual descendents of an ancient priesthood that was forced to act in secrecy. In the early days of Christianity, their views offended and opposed those of the orthodox Church, and later in feudal Europe, both the State and the established Church considered them heretics and sworn enemies. Yet, they could not be silenced - or defeated - and members of this priesthood have continued to this day to work in subtle and sometimes subversive ways to achieve their aims, often occupying very elevated positions within Western society, and always maintaining complete anonymity to those outside their fellowship.The extraordinary story that unfolds in "Solomon’s Power Brokers" reveals that the building of the modern world was no haphazard process. There was a grand plan - and it has succeeded. The "New World Order" is already here.

lots of interesting history and coming up in the ages to current

Extremely interesting book. Worth reading. Not for the closed minded. Worth the time to read and ponder upon, so take it in spurts.

The price was excellent, the delivery came quick and the book is in great condition...verry satisfied

Ordered for someone else but knowing what a reader he is I know he enjoyed the read.

Always good work by Christopher Knight.

Very informative book and very well written! I recommend it! This is great as a historical reference, which is why I bought it.

Waste of my time and money. The cover of the book is all there is to it. Don’t buy it.

Let’s face it, secret organizations control everything. Knowledge is their leverage. So they feed the masses lies. This book contains 8 pages of colored photos to help you begin to see and think about symbols. If you read the book closely, with a highlighter and a pen, you will discover it has a lot of information.
