Customer Reviews

I had been searching high and low for this type of book, it is exactly what I was looking for. My son loves to draw comic strips, this book is ready to go. The book was a hit!!

Very disappointing. Just blank paper.No instructions. Boys need a little help.

I suppose its my fault for not reading the full description, but from the cover this looked like a book that would at least demonstrate how to draw comic characters. Especially for $9! It is filled with

pre-gridded comic pages. That's it. The book itself is flimsy and the pages are thin and mediocre quality. I would expect to find something like it at the dollar store. I got this as a last minute Christmas gift for my brother that loves to draw thinking it would expand his skills. Now I'll be scrambling for an alternative.
