Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking.Today, National Geographic Maps continues this mission by creating the

world’s best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.

This is a really high-quality map. I love the feel of it and I like that you can read the street names so clearly. It doesn’t cover a very large area would be my only complaint, but if it did the streets would either be smaller or the map larger. It will be great for first-time travelers to Paris.

The best Paris map, left my other one in Paris in Octobre,15. Great for vectoring due the way its laid out. Going back inMars,2016.

An excellent, easy to follow map. It could be a little bigger, but this covers all central Paris.

This map makes me *REALLY* look forward to my Paris trip!

Readable! Complete! Coated for durability. A good value.

The map is nicely detailed and had everything we needed to find. It has a coating that protects it from moisture which was great on hot humid days. I highly recommend this map.

Great detail but it cuts half of the city off! There is nothing south of Luxembourg. The map is very clear and easy to read in the center of the city.

The street map of Paris exceeds my expectations. Not only is there a comprehensive street map of Paris, there is airport information and a map of the area around Paris.The shipment arrived earlier than I expected!
