Love this story ... although definitely most appropriate for 18 or older.

My son is shipping off to college this September and he thought the book was great. It's written as poem, almost Suess style. We passed it around on Christmas and everyone loved it.

Great gift!

I only wish I had found this book prior to my son's departure for college. This book is the perfect gift for any child who knows Goodnight Moon (and most college-aged kids know it) and are getting ready college. So clever. Wish I had written it!

Gave this as a gift to a graduating high school senior who helped our Girl Scout troop. She loved this book. I can't comment much on the content as I just quickly skimmed it before I wrapped it up to give to her.

The presentation of this book does NOTHING to inform the reader of the fact that it's written for an 8 year old.... but, the messages are on point.

Bought this for my sister who's leaving for college and we both absolutly loved it. It was super funny and full of actual real helpful advice!

Great book. Fun twist on a classic story.
