I haven't generally bought or read comics since the early 90s. I bought this after seeing some of the art online and after recently getting nostalgic for my favorite childhood movie character. I've read both volumes now, and I found them very entertaining. The're well written, and the art is gorgeous all the way through.

I love this comic series, every Star Wars fan should read this! Get Vol. 1 first, of course.

Beautiful book. I highly recommend for any Darth Vader fan

$20 or close to half price is amazing for this item as of August 2017. Definitely worth getting.Additional note- the omnibus that supposedly combines volume 1 and 2 into a bigger book comes out in September if you would like to wait for that version, but looks like it is selling for $90 instead.

Surprised how good this was. Thought it was better than anything Star Wars I've seen or read since before the prequels. Also liked the supporting characters enough that I subscribed to the Dr Aphra on-going series after reading this. Will be ordering another set of volume 1 and 2 for a friend's birthday

it got here on time , great book.

Really enjoying these Darth Vader backstories! Really helps round-out and develop this beloved and conflicted character. Can't wait for more!

Great comic! Highly Recommended! The new Star Wars comics are awesome And they add to the new canon. I will buy them all.
