Nelles Verlag have been producing accurate and detilaed maps of all the world since 1982. Their reliability and clarity have made them the first chocie for travelers everywhere.

Very good detail and contour on this well-made map. I travelled in Taiwan for more than 2 weeks and at one point the family I was staying with needed to consult MY map during a road trip. Good physical relief maps are far superior to the flat, cartoon-like color maps.....especially if you’re either driving or planning a hike. Nice to know where the land will be flat or steep.The inset maps for the cities of Taipei, Tainan and Kaoshiung are fairly detailed and were very helpful. Overall a good map and better than many I found while shopping around. Be alert: Most ALL of the maps you will actually find for sale in stores WITHIN Taiwan -- especially outside the capital -- will not be written in English. Don’t wait, thinking you’ll just buy one on the street or in a bookstore after arrival.

This is a beautifully detailed and presumably accurate map. One of the features that would make this great for roughin' it through Taiwan is it's compact size: it folds out in such a way that the north end of the country is on one side and the southern end is on the other. I, however, wanted a map to put up on my wall and use as fodder for day dreaming about a possible back-packing adventure. In that scenario, I was picturing of viewing a map of the entire country not just parts. But I guess this is even more incentive to save up to buy a plane ticket so that I don't waste my $12+S&H.
