Synopsis

The Deep Sand of Damaraland tells of drilling for water in a stunning land, and the irony of trying to battle against drought in an African desert. Namibia is where the Wild West meets Africa - where trackers hunt criminals, farmers feud neighbors, rogue elephants pull apart water tanks, and one contractor rides horseback to the bush to lasso giraffes. In a paradoxical land where African and European lifestyles coexist and clash, and where intuition eclipses logic - the key to sanity and success pivots on getting to know the local people. Customer Reviews

I really enjoyed the book, which was the story of the author’s experience in Damaraland in Namibia. The book captured both the vast landscape and the local color of African and European people that the author came into contact with. I read the book while I was traveling in Namibia and found it a great travel companion.

This is a great read by someone who obviously knows what he’s talking about. Living in Namibia, working in Namibia - in not always the easiest circumstances, he has a great attitude about all the things that can and do go wrong. The characters are larger than life, and the details about the country - and the desert - excellent.I totally enjoyed the book, and have already downloaded more from the same author. It made my weekend!

The author, once again, acknowledges the world’s difficulties while remaining a steadfast solution to a myriad of cultural, political, social, and personal issues. Great read!

My parents always taught me to find all of the positive aspects of every country we ever lived in. They taught me to find the beauty in everything. In his entertaining, well written book, Mullen appreciates the beauty of Namibia and lets the reader experience it too. He handles some difficult politics and intolerant people with grace. His positive approach to life and his power to visualize ensure success. Mullen’s photographs in all his books are exceptional. I especially love the pictures of the Sossuvlei dunes in this book. Enjoy an escape to another part of the world.
