## Customer Reviews

Gr 4Ã¢â ¬â œ6Ã¢â ¬â •Promoting the conservation of these fearedÃ¢â ¬â •and often misunderstoodÃ¢â ¬â •sea creatures, this work emphasizes the awesomeness of sharks. It covers dozens of shark species, from the smallest (the pale catshark at eight inches long) to the most elusive (the pocket shark, with only two recorded sightings). Shark anatomy, how scientists study fossilized remains, and common shark myths are discussed. Reproduction is covered in detail. A "Who Would Win?" section that pits sharks against other fearsome animals is high in kid appeal. The winner is calculated based on physical features and attack modes. Stories about shark attacks bring this thick read to a close. A useful index helps pinpoint areas of interest. Readers will appreciate the high-quality photos throughout. The advanced vocabulary, in combination with

minimal pronunciation guides for scientific terms, makes this title suited for upper elementary and middle school readers. VERDICT This volume will swim off the shelves. Catch it to beef up shark collections.Ã¢â ¬â •Sandra Welzenbach, Villarreal Elementary School, San Antonio, TX --This text refers to the Hardcover edition.

"For readers transfixed by sharks, this photograph-filled guide, a tie-in to DiscoveryÃ¢â ¬â„¢s annual Shark Week, will hit the spot."--Publishers Weekly --This text refers to the Hardcover edition.

Great book with plenty of pictures and information! Big enough to give plenty of reading for kids & adults but not too big that you are intimidated. I would recommend this book.

I bought this for a 7 year old that I was taking to Sea World. It was an awesome accompaniment to the behind the scenes tour of the shark area.

Thank you.

It’s a gift for a friend’s child.

My granddaughter loved it!
