Customer Reviews

We got tons of use out of this map while driving around England. Our cell service was not quite what we had been hoping for, and the online driving directions were sometimes pretty confusing, so having it on hand probably saved the day! It folded up pretty well in the car (while in use) and since it’s all one one page, I didn’t lose my place when flipping pages.Michelin maps are always great and this one is no exception.

This was better than the AAA map I had of Great Britain- but I still would’ve liked more detail than this map gave us for getting around on country roads. I did fold nicely. I’m wondering if there is a map that is more detailed available.

Easy to use - but lacks some of the smaller roads.

Michelin maps are without parallel being surpassed only by the Ordnance Survey Maps of Great Britain.

nice map , very detailed
