Embraced by the Light is an inspirational map of the afterlife framed in the moment of Eadie’s death, and presents a possible answer to the big question, "Why are we here?" An easy read, its subtitle could have been "The Average Person’s Guide to Near-Death Experiences." Although heavily filtered through Eadie’s Christian worldview, her vision of the afterlife does not include a wrathful deity, but a figure of love and compassion. Some readers may find Eadie’s repeated Christian references bothersome, and Embraced by the Light will undoubtedly raise a lot of questions along the lines of "What about reincarnation?" and "What happens to people who are not Christians?" --Brian Patterson --This text refers to an out of print or unavailable edition of this title.

Eadie died at age 31 after surgery. During the time she was clinically dead, she alleges to have traveled through the spirit realm learning about the laws of nature and the history of the universe. The angels and other spiritual beings explained to her the reasons why different individuals chose to

be on the earth and to accomplish certain acts. Her vision includes insights into the question, "Why are we here?" Our souls chose to come to the earth at certain times to be united with families that we had been soul mates with earlier in the spiritual realm, she explains. Perhaps her most intriguing insight regards the fall of humankind. "Eve did not sin because she was tempted but because she so desperately wanted to become the mother of mankind," she states. Much of her story is similar to other near-death experiences. However, she obviously includes many of her personal views about religious philosophy. Her use of mythical elements detracts from the credibility of her story. A better source on this topic is the works of Raymond A. Moody (e.g., Near Death Experiences , Sounds True Recordings, 1991) . -- Ravonne A. Green, Emmanuel Coll. The first time I read this book 20 years ago, I was very inspired. This time I have an English-as-a-second-language student who is interested in Near Death Experiences, and who is trying to use the verbs she has been taught to speak in the past tense when necessary. I'm using this book for this dual purpose: it's written in past tense, is simple and inspiring, especially to the Christian mind set. When Betty Eadie died for 45 minutes on the operating table, she met the Presence of God which is individualized for each one of us; but she thought it was Jesus. That Majestic Being of Light did not correct her, but answered all her questions which were much more important for the stage she was in (and the stage so many of her future readers would be in when they find this book). It's a great book for Christians who are just beginning to peruse the subject of Near Death Experiences.

This book changed my life, and helped me make the decision to get clean and enter a rehab program. Must read!!

I purchased this book for my parents who are older now and have always taken death hard with depression and fear especially when their own parents died. This book seem to be very helpful for them to have a new and better perspective about the after life. It was highly recommended by a therapist and I am very happy that they are learning a new positive way to deal with and understand that death is not taboo it will happen to all and that there is a way to accept it positively and not allow it to disable those who are left behind. The book is an easy read very compact and enjoyable. It fits in a purse and Betty J. Eadie's experience is very inspirational and her message is helping my

senior folks feel more accepting of death and the after life. Very pleased with our purchase. It shipped very fast and in great condition.[...]

Bettys experience is so real, exciting and comforting that death isn't to be feared, but anticipated with great joy, peace and above all love. It clearly shows us this earthly life is a test to determine if we love our Lord above all and our neighbor as ourself. Being self centered, not loving others and God above all may cause us to lose the glorious wonder of Heaven.

had a copy that I loaned out but never got back. would recommend this book to anyone searching for answers about death and everyday life issues. the section about why some people have diseases or die early is mind blowing.

I love this book, it gives you hope, it gives your faith back to you in a world that is so uncertain any more. I have bought so many of these books through the years, and I keep giving them away to someone in need, so I have to keep buying for myself. whats a better gift to give someone than hope and faith afterall? nothing better.

I've had this same encounter when I flat lined during my operation. This story is dead on. There is a Heaven and we all will see one day.Great Book!

After my mom passed, I read so many books to try and understand her mantra of "everything happens for a reason". Well that's not explained any better than in this book! This is he book that basically summarizes the principle that we are not bodies with souls, but we are souls with bodies. Must read.
