Synopsis

Cancer can now be cured, not just treated We are not accustomed to thinking about a cure for cancer. We think of remission as the only possibility. But this book is not about remission. It is about a cure. This is possible because in 1990 Dr. Clark discovered the true cause of cancer. The cause is a certain parasite, for which I have found evidence in every cancer case regardless of the type of cancer. So lung cancer is not caused by smoking, colon cancer is not caused by a low roughage diet, breast cancer is not caused by a fatty diet, retinal blastoma is not caused b y a rare gene, and pancreatic cancer is not caused by alcohol consumption. Although these are all contributing factors, they are not THE cause. Once the true cause was found the cure became obvious. but would it work? I set a goal of 100 cases to be cured of cancer before publishing my findings. That mark was passed in December, 1992. the discovery of the cause and cure of all cancers has stood the test of time and here it is!

Dr. Hulda Clark was a government-sponsored research scientist whose private practice led her to the discovery of a remarkable and inexpensive cure for cancer. The Cure For All Cancers includes unpublished letters from men and women who followed Dr. Clark’s advice and experienced dramatic improvements in their health. Learn how to identify and remove what causes your cancer and your body will do the rest. The information presented in The Cure For All Cancers is sound, and there is no conflict with any clinical treatment. -- Midwest Book Review --This text refers to an out of print or

unavailable edition of this title.

Dr. Clark is an independent research scientist. Dr. Clark has a Bachelor of Arts, Magna Cum Laude, and the Master of Arts with High Honors from the University of Saskatchewan, Canada. Then she studied for two years at McGill University before attending the University of Minnesota and obtaining her doctorate degree in physiology in 1958. After doing government sponsored research for almost ten years at Indiana University, she began private consulting in nutrition in 1979. She continued her studies to earn a Naturopathy degree and an amateur radio license. The freedom to follow her most promising observations led to the breakthrough discoveries described in this book.

Awesome. Too logical and informative for the sheeple or medical professional

Living off the grid is the only way to prevent cancer...With all these rules one must follow indicated in the book it makes it almost impossible to avoid the deficiency disease called cancer.I enjoyed reading the pages 30, 463 and 507, as they had particular interest to me.Making a Zapper is the next project to work on. Then building a Synchrometer. I think several alternate health activists have made their own version of this tool already.This is a great book as well. I read this book before Cure For All Cancers -Ã Â World Without Cancer; The Story of Vitamin B17Note: Also for those reviewers that refer to the author's Wiki page, often this information is exaggerated. Do not believe everything you read on a Wiki. Do your own research and follow the example of a famous Budha - who said, "Do not believe anything I say."

Have paged thru & looking for the cancer that they say I have, & I'm not doing the cutting, nor the Chemo or their Burning up the body. Just want to learn more about all the ways to heal natuarly.
