Synopsis

Divided into three sections, this book is designed to provide an introduction to the Druid Way based on a Celtic metaphysic. It examines the history of the Druid Way, the metaphysic that gives it continued life, the philosophical concepts of the Druid Way, as well as the importance of the Matter of Britain in understanding what it is to be Druid.

Customer Reviews

This book is a very in depth telling of the history and background of the Druids. It was nice to learn as much as I did about the path and where it came from. It is definitely more suited to advanced readers though as it can be a little overly-intellectual at times. Overall, it's a good read for someone wanting to gain some more in depth knowledge about the path to the old religions (though the story and research points in other directions in other books I've read).

Great book. Well thought out and quite honest.

At last an intelligent and comprehensive introduction to what Druids are and what they do. I found this so much better than all the other introductory texts as it offers more background and is not afraid to tackle the philosophy. It is also good to find new names producing work.
