Customer Reviews

Straight forward, there are no other tattoo books like these. If you want good texts to accompany an apprenticeship, these are the one (I won't ever recommend learning to tattoo from a book but you could with these). These three books are a good foundation.

Fast Shipping- Item is as described - - Very Pleased!!

good book

vary good product was purchased as a gift and went over vary well loved it a + + + +

This book has proven to be very useful for me as an apprentice. Things were broken down so

specifically that when you’re handling things it all clicked.

All of Alayon books are very similar, so I would suggest just getting one book to start and that is:Ã Â The Craft of Tattooing. In my estimation, that book is Alayon’s most complete and has most of the information this book has. I would also recommend for advanced tattooers:Ã Â Advanced Tattooing Techniques A Guide To RealismÃ Â Also, if you’ve got the cash, go for:Ã Â Reinventing the Tattoo, 2nd Edition

I bought this after I purchased the complete art of tattooing. Everything in this book is also in complete art of tattooing. So I wasted my money buying this thinking it was different. Publisher needs to inform people of this so the customer won’t make the same mistake as I did.

I found this book to be extremely helpful. I have another book by this author and both books are great. The author provides a lot of good information and accompanying pictures that are useful to any beginning tattoo artist. I recommend this book (and other books by this author) to anyone wanting to learn to tattoo.
