Customer Reviews

Exactly as described! Love the convenience!

These books are very good as far as instruction goes, but I expected a better selection of songs

These are a great series of piano books. My daughter has been using them for years.

We especially loved the "Somewhere Over the Rainbow" version in this book.

Exceptional series - very well thought out and developmentally appropriate. Combines the right amount of moving ahead with review. All the pieces are appealing and student-friendly.

All Faber books are great!

There are some marvelous piano methods available, but the Faber Piano Adventures series tops them all. I use Faber for all of my piano students. The James Bond Theme song in the 2B Popular Repertoire works especially well for a recital piece. I recommend this book.

My kids have used these books for their entire piano lesson time so far. The songs are fun, upbeat and challenging. They make learning mundane things like scales more interesting by putting them in song form. There are also many songs you will recognize. Great series.
