Synopsis

Veterinary TechnicianÃ¢â ¬â„¢s Daily Reference Guide: Canine and Feline, Third Edition provides a quick reference to all aspects of a technicianÃ¢â ¬â„¢s daily responsibilities in clinical practice.Ã Â Retaining the tabular format for easy access, the Third Edition adds more in-depth skill descriptions, allowing the technician to reach an even higher level of care.Ã Â Coverage ranges from anatomy and preventative care to diagnostic and patient care skills, pain management, anesthesia, and pharmacology.Ã Â Ã Â Ã Â Ã Â Ã Â Now fully revised and updated, the book is designed to build on a veterinary technicianÃ¢â ¬â„¢s current knowledge, acting as a quick refresher in the daily clinic setting.Ã Â A companion website offers forms and worksheets, training materials, review questions, vocabulary flashcards, links to online resources, and the figures from the book in PowerPoint.Ã Â The Third Edition is an invaluable practical resource for increasing confidence and improving technical skills for veterinary technicians.

Customer Reviews

Ã¢â ¬Å“Veterinary technicians will find this book to be a very good quick reference, and as such, it warrants purchase by any small animal practice. Veterinary technician students will also find it a useful resource.Ã¢â ¬Â•Ã Â (JAVMA, 15 December 2014) Ã¢â ¬Å“Overall Ã¢â ¬ËœVeterinary TechnicianÃ¢â ¬â„¢s Daily Reference GuideÃ¢â ¬â„¢ lives up to its title; it is a quick reference guide to dayto-day procedures and techniques used within a busy veterinary practice. I would recommend having this book on your shelf in addition to other veterinary nursing

textbooks.Ã¢â ¬Â•Ã Â (Veterinary Record, 26 July 2014)

great information and diagrams

I love this book it is basically almost everything I learn in tech school in one book. Good reference guide if you forgot something. Highly recommended it

Great textbook with lots of information. It is very big, and not something you can carry around.

I use this everyday as a registered veterinary technican

BIG price drop literally day after it was purchased. Otherwise it is alright. A lot thicker than expected.

I’m not a fan of the orientation of the book, I find it difficult to work with, but the information is great and well written.

Came in good quality and just like the picture!

A wonderful reference book for any Tech’s (or Practice) library!
