really helped me

REQUIRED READING

I bought this book as a gift for my 14 year-old granddaughter to supplement Edith Hamilton’s Mythology book that I gave to her. She was delighted to receive SparkNotes and is reading each section in it after she has read that section in Hamilton’s Mythology book. She reports that it really helps her to have a better understanding of what she has read and has helped her to see some things she missed when she read the book. I should give credit to my college-aged granddaughter, who is an English major, and who said SparkNotes is an excellent supplement.

It did not explain things as in depth or as well as I would have liked and the topics that were focused on helped me with my mythology class a little but did not have a large impact.

This corresponds to a book that I must read. I don’t do literature well and this helps me know the

key things before I read the book. well worth it

Can’t go wrong with the spark notes!
