I first heard Michelle speak about her book on a Hay House radio show. I didn't know too much about numerology and she made it sound so fun that I bought the book that same day from . I have to confess it was such an easy, fun read that I read it in one day! It was amazing how spot on and accurate the numbers were about my life. I couldn't help myself and scheduled a reading with her to go over my chart. I compared the numbers that I had figured out from the book and the ones she gave me - and most of them (that I figured out on my own) were right. She talked to me about what they meant - it was so insightful and helped me feel more confident about the direction of my life. I recommend this book to everyone on a journey to find your life purpose, self discovery and to align dates for certain events in your life. Not to mention, it's fun!

A number wizard I am not, but she breaks it down nicely. Having a bit of fun with this and another book on the subject. If numerology is your thing you will not be disappointed with the vast material this book supplies.

For giving us this wonderful starting point to this amaizing world, all of this information has help me understand a lot of my self.

the book is great , very details and help me to learn alot about myself. i recommend to buy it

easy to use book

I would have liked more explanation about why some of the master or karmic numbers aren't included in some of the sections, or if they were omitted unintentionally, but overall, a good guide that covers the calculation and interpretations.

I absolutely loved this book. I have always been interested in numerology and have been looking for a good book on the subject. After reading many reviews on many different books, I felt that this one would be the best choice. I was thrilled by my choice as I began to read it.Michelle really did her homework for this book and her website reflects that as well. She gives you step-by-step

instructions on how to calculate your core and minor numbers. Additionally, she gives you three different methods used to calculate your number so that you can use the way that makes you feel comfortable. She explains how each method works and that different numerologists use different methods.After showing you how to calculate your numbers, she gives you an in-depth explanation of each number. I have looked at a few numerology books at my local bookstore and this one provides one of the highest levels of detail you can get. In addition, the descriptions are scary accurate. As I was reading myself, I kept thinking ÃƒÂ¢Ã â ¬Ã Å“Wow I do that!ÃƒÂ¢Ã â ¬Ã Â• or ÃƒÂ¢Ã â ¬Ã Å“ThatÃƒÂ¢Ã â ¬Ã â„¢s exactly how I am!ÃƒÂ¢Ã â ¬Ã Â•. I even decided to do a reading for my boyfriend and child. It was surprisingly accurate for my boyfriend and I like to think that I mapped the future personality traits of my son.This book is for anyone looking for that in-depth numerology reading. ItÃƒÂ¢Ã â ¬Ã â„¢s fun for you and your whole family. I will be recommending this book to all my spiritual friends and maybe even a few who arenÃƒÂ¢Ã â ¬Ã â„¢t very spiritualFTC Disclosure: I acknowledge that I received this book free from Hay House Publishing to review. The opinion in this review is unbiased and reflects my honest judgment.

I heard Michelle Buchanan on Hayhouse World Summit. I have always been interested in numerology and thought she was just the best numerologist I have ever heard. I bought the kindle version first and read all of it, then decided to buy the actual book, as I think it is easier to flip pages back and forth to do the calculations! The numbers are revealing.. Wish I had known many years ago. It was easy to read and calculate. Great start in knowing how the numbers can impact your life, and what you can do to better your life. I loved it.
