Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and

science of mapmaking.Today, National Geographic Maps continues this mission by creating the world’s best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.

This was printed 2014 and is not accurately updated. I got this for a business trip to the Dublin Convention Center. The large center opened in 2010 and is not on this map. Just the empty space that was once there. The rest of the map seems fine, but such an important city building as the Convention Center should have been added to this map years ago. What else isn’t updated or is correct?

Great map, got me and my wife around Dublin for 4 days perfectly. I love the National Geographic destination maps because they are durable, and also point out the most important landmarks so you don’t accidentally miss something!

Excellent map. A must for anyone traveling to dublin.

Only a fair map, it’s about like the one you get "free" in Rick Steve’s book.

It is a good map and will hopefully be useful as we walk Dublin streets.

A great tool for seeing Dublin and beyond.

Good map - just enough detail.

Excellent map for getting around Dublin. All of the sites/attractions we were looking for were on the map. Very durable.
