My son loves these books. Like all of the books in this series, the plot in this book is adapted from an episode of the television series.Truth be told, the books are agonizing to read. Where the TV show uses pretty normal language, the book feels like it's talking down to the reader. But this is the status quo for books targeting younger kids, so I can't penalize the rating that much.

ok

My kid LOVES rescue bots. And helps him enjoy reading.

very cute, and keeps my 3 year old engaged the whole time! Will buy more books like this

My 3 year old son LOVES this book and the Rescue Bot i got along with it. However when I'm reading the book the language is choppy and it is a long read.

My 5 year old has been a huge fan of the Transformers Rescue Bots series. He was very happy to open the package and wanted to read them immediately. The story is a retelling of an episode that aired not an original tale which did not bother my son one bit. This is a great book for any transformers RB fan!

My 5 year old loves this book. I had to read it to him several times within the first few days of receiving it.

Quick shipping and my son loves this book, I might have to get him the rest of the collection
