Amazingly informative and very entertaining!! Easy listening and educational for both spouses!! The teachings provide practical information that can be applied to our daily lives. It isn’t presented in a lofty, ethereal manner, but an everyday guide that we can actually utilize to improve the relationship with our spouses! I would recommend this for couples old and young! FYI--this is not an audio reading of the book, but rather a conference-style teaching based on the principles also set forth in the book.

Looking for something to guide your marriage, start your marriage, ignite your marriage, save your marriage....better yet if you are married or considering to marry even if you think your marriage is just fine, buy this and you won't regret it! Both my husband and I have listened to the cd's multiple times-God Bless ;)

This has been a great resource for our marriage group. Even after almost 20 years of marriage, we found ourselves asking eachother questions about things we have never really discussed. One couple was on the brink of divorce (seriously, they came to the class to see how to deal with eachother until they could make it final) and I can say that after 2 years from the class, they're still together, stronger and happier.We bought this for family members and know that it will have the same impact on them as it did us! Strong or suffering marriages, this is a great resource!

I enjoy learning from Jimmy Evans.. although the first CD is going me a hard time. keeps giving error messages and ejecting CD. May have to return but will try cleaning the CDs first.

Awesome series for the married couple... lot of good insight

Just when you think you know "how to be married" you learn something new! This series was AWESOME! Jimmy Evans is straight to the point and provides humor "to help the medicine go down!" Highly recommended no matter how long you've been married or if you're about to be married!

I highly recommend this to all couples, maybe even as pre-marital "counseling" for those planning a wedding. I gave it to my daughter and her fiance for that purpose. Hopefully, they listen and it helps them avert some of the pitfalls of marriage.

This is awesome!!! Jimmy Evans is real and humorous. It's def relevant, current stuff. From the front cover it looks like it would be more for older people, but it was referred to me by someone in their 20s. This could be a marriage changer!! It's also avail in DVD but I wanted the CDs since I drive a lot. Now I don't want to get out of the car - I want to keep listening.
