Kathy Moore and Roxanne Wyss are leading experts on small appliances and they wrote the booklet that is packed with the BabycakesÃ Â® cake pop maker by Select Brands. They are the founders of The Electrified Cooks, www.pluggedintocooking.com.

I got this hoping to find some good from scratch recipes to use but most of them seem to have a cake batter base to them and just ok, I have a from scratch chocolate cake-pop recipe that is great but it didn't come from this book and was hoping to find more good ones. The glazes however are wonderful.

This book is amazing. Its filled with a lot of different recipes, the only down side is that it doesn't include pictures for reach recipe.

The book was is very good condition but there were not enough pictures, just mostly recipes without pictures.

I love all the different recipes and the using them with the machine is even better. This is a great book for parties, bake sales, family reunions and I could go on and on. You will not regret getting this book.

This book has a wide variety of recipes including appetizers. I like the fact that all of the recipes are for actual cake pops made in the cake pop baker, not where you mix up a cake mix and add icing to it to make the balls. I have so many recipes marked to bake it will keep me baking something new for a long time. I also like the added notes, to either slightly change the recipe or suggestions on how to use the cake pops. Even has a section on cake pops for special occasions. I'd seen all the cake balls cook books but wanted something beyond that and not just with sweets.

Bought this for my niece. She loved it.

Fun decorations. Good recipes

It does have a lot of recipes and designs but hardly any pictures.
