Synopsis

New Solution for beginners!Learn piano in MINUTES with this unique illustrated guide.* Wish you knew the basics? * DonÃ¢â ¬â„¢t have a lot of extra time (or patience)? Fast & fun tutorial Ã¢â ¬â œ easy learning tricks + memory tips!Quick visuals Ã¢â ¬â œ so you donÃ¢â ¬â„¢t need a piano to follow along.10 minutes is all it takes because a picture is worth a thousand words.Learning piano from "text-heavy" books can be dry & complicated. With new Smart Funnies 10-minute lessons, youÃ¢â ¬â„¢ll know piano basics in a flash! Smart Funnies offers a "less is more" approach to learning - using SIMPLE VISUALS and humorous "funnies" to introduce new concepts. Funnies are not just ENTERTAINING, they’re EASIER to remember. A friendly gopher character guides you through each image quickly & easily, sharing important points along the way. This series offers three 10-minute lessons without text overload: piano KEYS + piano NOTES + piano SYMBOLS (available as separate lessons, or integrated into a full collection).Great for ALL AGES - whether you’ve never taken lessons, are taking lessons now, or forgot lessons from your past. A refreshingly FUN, FAST & EASY way to learn!Available in both Print and Digital formats.

Customer Reviews

I bought all three in this series and I am glad that I did. I gave them "only" four stars-because there isn’t anything thats revolutionary in them. Were they not so inexpensive-I’m not sure they would be worth it-ALL of the information (nemonic devices) are available through other sources and most of them are free. However, these books save you from searching or coming up with your own-and the books in and of themselves integrate the nemonic devices in the individual books and in the series.

It is an easy to learn book, very brief and effective in how to learn your piano keys, very nice.

This truly is an easy way to learn basic piano knowledge. In ten minutes I knew much more than I had ever known about playing the piano. Easy. Quick. Effective. A must read for beginners.

I thought the book really helped. Really took 10 minutes. Also the book shows memory tricks, and shows good tips.

This is a great find! I have tried other lessons but this one is really easy with lots of helpful pictures...if I were to recommend a beginning piano book, it would be this one!

I am an adult trying to learn how to play piano and I have always struggled with the names and position of the keys. I use the "every good boy does fine" mnemonic when I am reading music, which is time-consuming and labor-intensive when I have to apply it to every note.This book simplifies learning piano keys in an amazingly effective way! I read the book in about 10 minutes (as the title states) and I can now visually identify the piano keys much faster! Also, my 3-year old son was interested in the book because of the adorable illustrations, and he has now started to dabble with the piano keys too because he thinks it is fun!I would HIGHLY recommend this simple and innovative approach to quickly learn piano keys!

I’m a pianist; I teach as well--and as I read this book I found myself thinking, "Oh my goodness, why didn’t I think of that!" I will be incorporating these ideas into my lessons, especially with little ones. Thank you!

This is a terrific book for anyone contemplating playing the piano. Most especially for kids since the 1st few months of beginners lessons are pretty much covered in these short books and without the cost of private lessons. Great way to also test the interest in piano for any beginner. These books are a great value for what you learn from them. Thanks!
