KaplanÃ¢â ¬â„¢s private tutors and admissions consultants supplement those offerings with one-on-one support.

I found some questions that are either misprinted or unclear. My son was doing the online test then it was suddenly interrupted at the middle of the test. The software did not allow him to go back to complete the test.

I feel dumber already, having flubbed the first practice test. And I was a National Merit Finalist back in the 90s...Still, the test prep strategies seem to be working for the teenager on her way to take the PSAT and the Kaplan guide helped her with the ACT last year.Practice questions, explanations of right answers, all in, a good preparation book. Here’s hoping it leads to good results, but you really only get one shot at the NMSQT side of this.

Includes helpful explanations to math questions (maybe to other questions, too -- haven’t used that part yet).

My daughter is studying for the PSAT and said it has the study material content she was looking for.

very helpful

good paper for making paper airplanes, jk it is very helpful with plenty of example/practice tests/problems.

It’s a good book to use to study for the past. If It has tests that help you see how your skills have developed and answers with explanations.

very clear
