Customer Reviews

This was just a generic dog book. I don’t believe this person knows anything specific about Papillons. I do not recommend you spending any money on this book.

This is a very poorly written book. I knew I was in trouble when the author mentioned the Papillion’s large size. This man may know about dogs but there is nothing in this book specific to the Papillion breed, and knowing that, made me doubt the other information in the book.

I can’t believe is even selling this book! The author clearly knows nothing about Papillons. The book has so many misspelled words, we should be reimbursed for the money we spent on the book.

this book answered all of my questions thoroughly. thank-you I now know what health problem is related to my puppy and can manage it accordingly.

Having just purchased my 3rd Pap, this book attracted me. I listened to the promo on Audible and knew the negative reviews were correct. Not only was it generic, but it is incorrect. The reader says that the Papillon can be a "large" dog. That is incorrect. My newest was sired by the TOP PAP in the country and is expected to be between 5-6 pounds. His Dad is 6 lbs. My other 2 Paps are between 5.25 and 5.75 pounds. Up to 12 pounds is within standard, but I would not call that "large".
