I really love these phrase cards. These cards are helping me so much in improving my Spanish knowledge and speaking.

I’m an intermediate level spanish student and these cards seem to give me the right level of challenge. I’ve worked threw a few hundred so far. They work great as a supplemental tool. Since the cards themselves do nothing to help pronunciation you have to get some audio instruction, etc to use with it. But they are great for expanding vocab and your arsenal of phrases.

The cards themselves are very basic and flimsy paper like a cheap business card. The real problem for me is that on one side of the card you have the word right side up, then you flip the card over to see the translation its upside down. To me this is very distracting when you’re trying to learn the language and you have to flip the card over and then turn it right side up to read it properly. I don’t recommend this product..

This box of 1000 cards is arranged by topic with colored tabs at the top and they are numbered. Some of the translations are not what I remember from my studies but Spanish varies just like

English. I am still going thru the cards but value this review and would recommend them to anyone with a basic background in conversational Spanish. The is no explanation...just a translation.

Our flash cards arrived within days from .com. A friend highly recommended them. Two in our group of five are reviewing Spanish after many years and three are learning Spanish for the first time. These cards serve as another resource for us. We enjoy using them since we all are comfortable at this point, with pronunciation and have learned the past, present and future tenses of the Spanish verbs. We particularly like the idomatic expressions! The cards have been a great addition to our collection of learning tools!

These had great phrase, thought some of them were strange. I bought this so I could speak with my MIL who couldn't speak any English.

I love these cards. Thought of making some myself until I found these on ,for the price you can't beat it. Only problem is that they are heavy if you are going to take them on a trip.

The content is wonderful. I wish the cards were actually cards...they are flimsy paper about the same weight as writing paper not heavy card stock which is what I expected. This is the only reason I did not give 5 stars.
