I used during my year assignment. I was based in Khartoum but I travel to many destinations for work and tourism and I found this book essential to find decent places to stay and to eat (which outside the big cities it can be a challenge!).The thing I liked the most is it has a big section on living and working in Sudan. So it isn't just like any other guidebook I have owned. It isn't just for tourism but also people like me that get posted there for a while.In a country like Sudan those information are essential!
