Synopsis

A thrilling new route to a better societyA toxic ideology of extreme competition and individualism has come to dominate our world. It misrepresents human nature, destroying hope and common purpose. Only a positive vision can replace it, a new story that re-engages people in politics and lights a path to a better future.George Monbiot shows how new findings in psychology, neuroscience and evolutionary biology cast human nature in a radically different light: as the supreme altruists and cooperators. He shows how we can build on these findings to create a new politics: a Ã¢â ¬Å“politics of belonging.Ã¢â ¬Â• Both democracy and economic life can be radically reorganized from the bottom up, enabling us to take back control and overthrow the forces that have thwarted our ambitions for a better society.Urgent and passionate, Out of the Wreckage provides the hope and clarity required to change the world.
