Customer Reviews

I absolutely love this book! I'm super surprised it is self published and I'm really hoping and excited to read more from this author. This book drew me in right away. I finished this book in less then 24 hours because i really could not put it down. It is now in my top favorite books on my kindle.

One of the most refreshing and unique story lines I have read. REVENGE. And yet the author pulled it off with such skill I read the book at one sitting. Amanda would be wasting her talent if she continues to short change herself as an author, I hope to see another offering and many more to come.

I just want to say that this was a massive tearjerker for me. On top of the brilliant ending, the way you showed how the protagonist rralized everything and how she was feeling everything made this a great book. I look forward to more work from this author. Whatever happens, keep writing!

Homestly, I'm not big on wtiting out a reason for my ratings... But this book was so dang good I had to. Witty, relatable, and well written are the words that come to mind. I found myself laughing at moments and holding back tears at others. I usually find these kinds of books predictable and clichÃƒÂ©, but not this one. Sure, it's a typical plot idea.... But it wasn't obvious like a lot of others I've read. All in all I give it a solid 5 stars. Thanks for the great read.

This was a long book and it took a couple of chapters to get into it. I did not care for Jase in the beginning but around the 50% I saw the change. It was a cute read.

I really enjoyed reading the book. I can see the care that had gone into creating the caracters. The book is well written and a pleasure to read. Well done. Looking forward to Trisha and Eric. Write it. You are a good writer. Never doubt it.

I really enjoyed this book! It was a very cute, fun read. If you're looking for something funny and sweet, I would definitely recommend this story.

Absolutely amazing! Never have I felt so much emotion while reading a book, but without even trying I found myself in a complete alternate reality. I felt as if the main characters were my bestfriends. I felt as if I had fell in love with the love interest himself. I could picture everything absolitely vividly and I can not wait until Amanda Abram writes another book.
