Customer Reviews

I have been on pins and needles waiting for this book. I absolutely loved Imitation and couldn’t wait for more of the series. Well. I was not disappointed at all with this book, but now I have to wait for

the next one. Why? Because Heather broke me. Yep. She did. She took this series to the next level and I can't think about anything else but what has happened and what is yet to come. I have other books that I am attempting to read, but I can not get my brain to stop thinking about Ven. And Linc. And Daniel. And the rest of the Imitations.My heart absolutely breaks for Ven in this installment. She is so desperate to help her friends while keeping herself alive. She doesn't have many people that she can trust. And her forbidden love with Linc? Oh man. Heather Hildenbrand captured all of the emotions and suspense and urgency of Ven and I was able to feel all of it. I was so captivated by the story that I stayed up all night to read it. I couldn't NOT stay up and finish it. I absolutely, positively had to keep reading it come hell or high water. I'm glad I did, but damn; I'm broken. Heather took my heart and my mind hostage starting with Imitation and continuing the torture with Deviation. She's not going to release them until this series is finished. And maybe not even then. This series is one that you can't help but be enthralled with as you have no idea where it's going to take you. All I know is that I love roller coaster rides and this is one that isn't for the faint of heart.

i liked where the author was going with it, it was a good story, just not terribly well written. It was fast-paced in some parts, sluggish in others. The writer was all over the place. Certain things felt forced. For someone who was raised to live a lie, the main character was awful at lying. How can you make a copy act like they have a superiority complex if they arent treated like a queen? How can you feel comfortable acting like a loose-moral woman when the exact opposite is burned into their brain? Your upbringing and the choices you make, define who you are. Did the author completely skip character development 101? But I guess part of the point was there was a problem with the imitations.

OMG, you guys. THIS book!!! I loved book one of this and impatiently waited for Deviation to come out. When I got an eArc of it, I dived straight in and I honestly didn't want to leave the book down. My poor heart!After what happened in Imitation, Ven is trying to bide her time and make Titus trust her. She is trying to be the best Raven she can. Appearances are everything but Ven has a secret agenda and is trying to free every Imitation from the lab. Can she pull it off from the all seeing Titus?? Just who can she trust?What can I say about this amazing book!! Character wise, Ven is as awesome as always. She puts on a brave face but underneath is so strong yet so broken. She longs to free her Imitation friends and does everything she can to try, but Titus always seems to be one step ahead of her. She just wants to be free, free to live and love who she pleases.Linc is as adorable as well. He is Vens rock and he has stolen some of my heart. He is such a sweetheart and

exactly what Ven needs.The plot of Deviation is fast paced and action packed. Titus is such an evil power hungry person. He is swapping people for their Imitations just to further his goals. Could you imagine living in a world where you don’t know who is real and who is an Imitation? If you don’t agree with Titus then you can be pretty sure you will be replaced!!Anyway, Deviation was amazing. So much happens in such a small length of time that you are left reeling. Heather Hildenbrand is not afraid to toy with your emotions and believe me when I say that Deviation will do just that. My heart broke and I was left gasping at certain parts. I cant say much more because I will spoil it but suffice it to say that Heather is evil!!!! Lol. She put me through the wringer with Deviation and has left a gaping hole in my heart. I need book 3 like yesterday!!!! That ending was killer.So yes, I adored Deviation and can not recommend this series highly enough!!! It was such a roller coaster but one I wish I could read again for the first time. Ven, Linc and the gang are firmly in my favourite list and I can not wait for more from them. An amazing book from an even more amazing writer. She puts so much into her writing and characters, that you cant help but love them. I can sum up Deviation in a sentence, Its a NEED to read book!! If you haven’t tried the series yet then what are you waiting for?? Go grab Imitation now and join Ven and Linc on their journey. You won’t regret it.

Omg this book has taken me to the edge and back so many times it makes me scream. One minute every thing looks perfect and then the author throws in a twist and you just scream no or why. It is so intense on your emotions you are crying then laughing and before you know it you will be yelling at the book like it will listen to you.If you love a book that pulls you into like you are riding along with Linc on the back of his motorcycle. You will not be disappointed.Until Next Time. .... Tabi

Wow!!!ÃƒÂ Ã Å¸Ã ËœÃ Â® This book is a wonderful 2nd in the series!!!ÃƒÂ Ã Å¸Ã ËœÃ â ¬ There is lots of action and twists and turns!!! It kept me on the edge of my seat with my heart pounding!!! I can’t wait to read the next book to find out what will happen!!! And after this, I want to read more of Heather Hildebrand’s works!!!ÃƒÂ Ã Å¸Ã ËœÃ â ¬ Great series!!!!!!! Great writer!!!!

Deviation is the second book in The Imitation Series. Ven and Linc are working together trying to take down Titus and free the imitations. We are introduced to some new characters some are trustworthy and some are not. I enjoyed this book and can’t wait to start on the next book in the series.
