Synopsis

In this bold and uncompromising book, George G. M. James argues that the Ã¢â ¬Å“Greek philosophyÃ¢â ¬Â• in which nearly all of Western culture has its roots actually originated in ancient Egypt Drawing on careful historical research and a radical rethinking of the conventional narrative of Greek history, James asserts that our celebration of the ancient Greeks as the creators of Western civilization and philosophy is misattributed. In fact, he argues, our praise rightfully belongs to the people of Africa. Furthermore, this massive intellectual and cultural theft has helped lend credence to the damaging notion that the entire continent of Africa has contributed nothing to world civilization.Ã Â James explorers documented connections between celebrated Greek philosophers and the influence of Egyptian thought, proposing other possible links between northern Africa and Greece as well. An important book for understanding the history of philosophy, culture, and race in the modern world, Stolen Legacy is not to be missed. Ã Â

Customer Reviews

"excellent book" -- roxanne warner"great book" --luther warner --This text refers to an out of print or unavailable edition of this title.

The book is an attempt to show that the true authors of Greek philosophy were not the Greeks, but the people of North Africa, commonly called the Egyptians; and the praise and honor falsely given to the Greeks for centuries belong to the people of North Africa, and therefore to the African Continent. Consequently, this theft of the African legacy by the Greeks led to the erroneous world opinion that

the African Continent has made no contribution to civilization, and that its people are naturally backward. This is the misrepresentation that has become the basis of race prejudice, which has affected all people of color. --This text refers to an out of print or unavailable edition of this title.

I am in the process of returning the book because it is not the real book as advertised. This is not a comment on the Book titled "Stolen Legacy" by George G.M. James who is a wonderful author and writer. This is to alert the public that this book with this cover is a copyright infringement book. The original book published by Philosophical Library in 1954 - First Print - contained 190 Pages. This copy only has 166 Pages. There is no mention of the publisher or copyright inside the first page of the book.

Excellent Work!!! A MUST-READ!!!

This book was received well before the expected due date and in the best of shape. It is like a brand new book and I am very happy with this purchase, thank you!

I Love History

Fascinating book. Author suggests that Greek philosophy and science is based on knowledge obtained from the Egyptian mystery orders. Worth the read.

Truth written.

I truly enjoyed this book so much that I brought 3 more!!!

Amazing
