Customer Reviews

A must have in any beginners Ukulele library. "How To Play the UKULELE for the Complete IGNORAMUS" should be the foundation of your Uku understanding and play. As a 77 year old with No, Zero, Nada music background/experience I decided to pluck (pun intended) Uku playing out of my Bucket List and run with it. Needing all the help I can muster, I’ve purchase six of the best known books for beginners. This book is absolutely heads and shoulders above all the rest. While most

other books give brief "how to play" instructions and then songs, songs, songs, UKULELE IGNORAMUS comes with a CD, Details Uke History, Choosing a Uke, Holding, Tuning, Chording, Strumming, Playing Melody, Fingerpicking, plus A Chord Chart and a Strum Chart.104 pages in a spiral binding easy lay flat book with large type.Another recommended companion book to get detail instructions with a different slant is "Play UKULELE Today".Enjoy!

I don’t like the word, "ignoramus," in the title, but you can’t beat this book and CD. If you’re a beginner, you will definitely benefit from it. I like the way the information is presented. Instead of a dull method book, it is just plain fun.

I don’t like the word "ignoramus" but the book is very clear and teaches beginning ukulele both single note melody and common chords.

A great buy

Very helpful and easy to understand.

Quite useful, but many of the songs are unknown to me

Excellent for the beginner

Easy to use and quite informative for a beginner.
